MARCH MEETING ANNOUNCEMENT

Electric and Gas Utility DSM Bidding in Massachusetts

In this month's meeting, James M. Avery, Esq. and Emmett E. Lyne, Esq. will provide a presentation on the topic of demand side management ("DSM") bidding. In particular, this presentation will focus upon recent developments in electric and gas utility sponsored RFPs for DSM services. The presentation will also address recent directives of the Massachusetts Department of Public Utilities regarding DSM bidding and the practical issues that need to be considered by the utility companies issuing RFPs and the energy service companies interested in responding to these RFPs.

President's Corner:

•

The February meeting was quite educational. I would like to thank our speaker, Mary Clark Webster, and Richard Costello for obtaining her. We had 65 members in attendance to learn more about Integrated Resource Management, electric wheeling, and how externalities are evaluated.

As a follow-up to last month's topic, this month's meeting deals with gas and electric DSM bidding.

"Business as usual" and other prescriptive approaches to DSM have given way to a new DSM shaped by true Integrated Resource Management objectives which will help evolve DSM further. Therefore, please plan on attending the March 1, meeting on recent developments in gas and electric utility sponsored RFPs for DSM services.

Stephen M. Di Giacomo, P.E., CEM.
