

ASSOCIATION OF ENERGY ENGINEERS NEW ENGLAND NEWSLETTER

FOLLOW US

FROM THE PRESIDENT

JOHN MAW

Hi Everyone,

Happy New Year! We kicked off 2024 with our Annual Energy Outlook at Raytheon Technologies in Tewksbury, where we learned about the current and future outlook related to energy costs and availability. Thank you again to Raytheon Technologies for hosting, the Annual Outlook committee for organizing, and to our outstanding speakers for bringing this event to life.

Here's what you can look forward to in the upcoming weeks:

- **CWEEL's Get Your Elevator Speech Off the Ground** - Hosted at National Grid's Sustainability Hub in Worcester, this event is an elevator pitch workshop led by Nicole Voudren with relaxed networking, a light breakfast, and a tour of the facility.
- **Screening of "Nuclear Now"** - An investigation into the possibility of addressing climate change with a move away from fossil fuels to nuclear power. This event will be hosted at the historical Coolidge Corner Theatre in Brookline, MA, and will feature a guest speaker and group discussion.
- **AEE/ASHRAE Joint Meeting on BERDO/BEUDERO** - Hear from Vanderweil Engineers on the latest carbon emissions policy affecting Boston & Cambridge and its implications for the region moving forward.

Also, two more quick notes for those of you who are still reading:

- **Scholarships** - We're excited to announce that we'll be opening up applications for 2024 scholarships by the end of this month. The application will be emailed out and posted on our website when it goes live. Last year, we awarded scholarships to six well-deserving students in the region who are pioneering the future of energy engineering. If you are currently a student or knows one who is enrolled in an energy-related program, please keep an eye out.
- **Golf Outing** - Save the date! We'll be hosting our annual Golf Outing on **Tuesday, June 25th**. We'll send out a formal save the date email in the next month or so, and plan on opening registration in early May - stay tuned.

If you have any insights, questions, or suggestions, always feel free to reach out. Your feedback shapes our journey forward.

Warm regards,

-John Maw

CWEEL UPDATE

ANDREA MOSHIER
CWEEL LEAD

CWEEL New England is looking forward to a great year of events and activities planned to compliment the AEE New England monthly meetings. On January 26 we will meet in person in Worcester, MA (registration link below). Our own Nicole Voudren will facilitate a workshop on improving our elevator pitches. We will also tour National Grid's Sustainability Hub and catch up over a light breakfast. You do not need to be a CWEEL member to participate.

Looking ahead, we are planning a range of activities for our bimonthly meetings including networking, book discussions and community service. Do you have ideas, suggestions or activities you'd like to see from CWEEL? Please let us know, and consider joining our advisory group. The advisory group meets monthly to plan and organize CWEEL New England. We're looking for more members to bring new ideas. Participation in the advisory group is a great opportunity for leadership, networking, resume building, developing event planning skills, and driving the discussions and initiatives that matter to you. Thank you to all our current advisory board members and Happy New Year!

In March CWEEL will meet virtually to discuss "Never Split the Difference" by Chris Voss. Pick up your copy of the book, and stay tuned for details.

Finally, a reminder that CWEEL is the women's division of AEE, open to anyone who wants to support women in our industry.

Please reach out with questions, comments or ideas – CWEEL@aeenewengland.org.

ENERGYMATTERS2U PODCAST

Scott Graybeal - Caelux

BE A GUEST

Caelux is on a mission to lower installed costs while improving power production so that solar energy is more affordable and accessible to all. Caelux not only makes solar power better but allows to deliver energy at a much lower levelized cost of energy than traditional solar.

UPCOMING EVENTS

Screening of "Nuclear Now"
February 7th • 4:00 PM

Coolidge Corner Theatre
290 Harvard Street • Brookline, MA
\$25 – Pizza Included

Get Your Elevator Speech Off the Ground
January 26th • 9:30 AM – 11:00 AM

National Grid Sustainability Hub
912 Main Street • Worcester, MA
